電子教學卓越大獎 2011

School Stream 學校組

Silver Award and Most Popular Award 銀獎及最受歡迎獎

Fung Kai Innovative School
鳳溪創新小學

Innovative e-Learning Project
創新電子學習計劃

With a view to strengthening learning effectiveness, this school, with its well-equipped IT infrastructure, Wi-Fi facilities and i-devices, etc, attempts to launch e-Learning in full swing covering all learning areas across levels. To this end, school-based learning materials are enriched and pedagogical solutions adopted to enhance students' self-directed learning, interactions with their peer, teachers and parents, etc. To sustain the outcomes of e-Learning for the school and the education community, the school authority has sought viable commercial solutions with its collaborative partners on the development of learning and teaching e-resources.

為了加強學習成效，學校以完善的資訊科技基礎設施、無線網絡設備和電子裝置等，嘗試在各級所有的學習領域全面推行電子學習。為此，學校會豐富校本學習資源及採取相關的電子教學方案，以加強學生自主學習及與同儕、教師和家長之間的互動等。為了持續在學校及教育界推動電子學習成果，校方已與協作夥伴在符合商業運作的模式下，繼續發展電子學習資源。
